MED 100

PRO-ACTIVE

according to DIN 13277

Equipment

- Key switch
- Forced-air cooling
- 3 drawers
- 1 shelf
- Automatic defrosting
- Condensate evaporation
- potential-free contact
- Digital temperature display
- Antifreeze
- Visual and audible alarm signal, even in the case of power failure
- Minimum/maximum temperature memory

PRO-ACTIVE-Features

- Faster response time in the event of impending faults thanks to proactive alarms
- Data recording can be read out via USB interface using a USB stick and software
- Minimisation of temperature deviations in the interior
- Maximum storage safety thanks to harmonised components

Compressor with inverter technology

- Environmentally friendly natural refrigerant R600a.
Very low GWP value = 3 (Global Warming Potential)
 - Reduction in power consumption by 37 % compared to the previous model (power consumption = 0.426 kWh/24h)
 - Extended service life due to demand-orientated power adjustment
 - Frequency: 50/60 Hz
-

- **PRO-ACTIVE-Control:** Permanent, proactive monitoring of the performance data and alerts in the case of deviations – so that you can take countermeasures in good time before a fault threatens your chilled goods; world's most accurate temperature control in refrigerated areas thanks to two standard PT-1000 sensors
- **External housing** made from galvanised sheet steel (rustproof), with white, anti-scratch powder coating. Length of the plug cable: approx. 2.8 m.
- **Adjustable feet** positioned at the front to compensate uneven floors.
- **Interior** can be customised (surcharge may apply). See optional equipment.
- **Interior made from** impact-resistant, white plastic with moulded-in shelves.
- **Extra-thick insulation**, made from high-quality, compression-moulded and environmentally friendly material. Energy saving.
- **Door** with easy-to-replace plastic magnetic seal frame, lockable.
- **Door hinge** on the right-hand side (by default, see illustration), or the left-hand side, can be retrofitted.
- **Forced-air cooling**, switches off automatically when you open the door, ensures a uniform temperature and minimizes temperature deviations.

- **Automatic defrosting** with time limit and temperature monitoring.
- **Condensate evaporation** in the refrigerating machine room.
- **Key switch** protected control panel against tampering. Membrane keyboard with digital temperature display and minimum/maximum temperature memory.
- **Warning functions** with visual and audible alarm signal in the case of temperature deviations and power failure. In the case of power failure, the monitoring unit remains in operation for approx. 30 hours on battery power. Door open alarm after 60 seconds.
- **Alarms** can be forwarded via email or SMS using the Kirsch EVOLUTION CLOUD Module (optional).
- **Data documentation** can be read via USB interface with KIRSCH Datanet software.
- **Antifreeze** against sub-zero temperatures.
- **Ventilation-enforced refrigerating machine**, hermetically sealed, energy saving, low noise, easy to service. Inlet air and exhaust air flow through the ventilation slits at the front.
- **Low-noise compressor** reduces noise to 40 dB (corresponds to noise level I; sound perception: whisper).

Specification

Capacity	95 litres
Temperature setting	approx. +2 °C to +15 °C
Voltage	220 – 240 V, 50 and 60 Hz
Power consumption	30 watts
Normal consumption	0.426 kWh/24 h
Admissible ambient temperature	from +10 °C to +38 °C
Heat emission (max.)	100 watts
Overall dimensions (including distance from wall)	w x d x h = 54 x 54 x 82 cm
Usable dimensions	w x d x h = 40.8 x 32 x 34 cm
Exterior dimensions with door open at 90°	w x d = 54 x 105.5 cm
Shelf size	43 x 33 cm
Drawer innerm dimensions	w x d x h = 40 x 32 x 5.6 cm
Max. load: drawer/shelf	13 kg/25 kg
Weight	Net weight 46 kg, gross weight 52 kg
Temperature deviation	+/-0.9 °C
Noise emission	44 dB(A)

KIRSCH refrigerators and freezers offer numerous equipment options that can be retrofitted.

Lockable glass door

See clearly: avoid opening the door unnecessarily to inspect the contents. Lockable.

side wall interior lighting

Optional, optimal and energy-efficient lighting for the interior using an LED lightstrip.

Additional length and cross dividers

for the optimum organisation of your refrigerated goods.

Additional Shelves

Wire shelves, robust with load capacity up to 40 and 50 kg.

Access Port

Simple insertion of an external temperature sensor with integrated cable feed-through.

Castors

Can be equipped with steering and fixed castors.

Door coupling

Connects the furniture door to the device.

Decorative frame

Made of stainless steel, allows to cover door with a decorative panel (thickness max. 2 mm).

Condensation tray

for manual disposal of condensation water.

Equipment for temperature documentation

PC-KIT-NET

Automatic temperature documentation and monitoring via your network (LAN connection).

KIRSCH EVOLUTION CLOUD-Module

Maximum storage safety through optimal connectivity and real-time monitoring. *

External PT100/PT1000 with cold block

Additional temperature sensor for connection to existing/external monitoring system.

Circular blade temperature recorder

Depending on the model, it is either installed in the machine compartment panel of the refrigerator or freezer or integrated into an additional housing attachment.
